

KEY BRIDGE REBUILD

MARYLAND TRANSPORTATION AUTHORITY

YOU ARE INVITED

TO A VIRTUAL SUBCONTRACTOR/
SUPPLIER OUTREACH EVENT
JULY 23, 2025 - 11:00 A.M. (EDT)

Kiewit is providing Progressive Design-Build Services for the delivery of the **Maryland Transportation Authority's (MDTA) Key Bridge Rebuild Project**.

The project involves replacing the 1.7-mile-long bridge on I-695/MD 695 that crosses the Patapsco River. It will be completed in two phases.

Phase 1 (pre-construction) is currently underway. Kiewit is collaborating with the Maryland Transportation Authority (MDTA) and key stakeholders to define the project scope and requirements.

Phase 2 will cover the final design, engineering, and construction. Pre-construction activities began in January 2025, with construction expected to start in Fall 2025. We are actively seeking to engage local, small, and disadvantaged firms interested in professional services, construction, and supplier opportunities on the Key Bridge Rebuild Project.

Please join us for a Project update and to learn about current subcontractor and supplier opportunities and the bid submittal process.

Firms certified (or eligible for certification) as a Maryland Disadvantaged Business Enterprise (DBE) are highly encouraged to attend.
